### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shawn O'Dowd on September 22, 2004.

The application has been amended as follows:

- a. Cancel claim 9.
- b. In claim 20, on line 11 of the claim after the words "full functionality object" insert the phrase --, wherein the step of receiving the full functionality object further comprises receiving at the client computer a unique full functionality object that is only created once--.
- c. Cancel claim 21.
- d. In claim 22, replace the number "20" with the number --21--.
- e. In claim 23, replace the number "20" with the number --21--.

### ***Allowable Subject Matter***

Claims 1, 13-16, 20, 22-24, and 26 are allowed.

The following is an examiner's statement of reasons for allowance: each independent claim includes a combination of steps that when considered as a whole, is not anticipated or rendered obvious by the prior art of record. For instance, regarding

Art Unit: 2153

claim 1, although the steps of customizing a program object for a user, downloading a set of program parts to a client to create a full functional object, and using a set of additional program parts to create a full functionality object from a limited functionality object are all well known as individual steps, their combination in the manner claimed is not well known or obvious, and is thus patentable.

Claims 13, 20, 24, and 26 are allowed for similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley Edelman whose telephone number is 703-306-3041. The examiner can normally be reached from 9 a.m. to 5 p.m.
